6. Demonstration of compliance with A.R.S. § 49-112:

Maricopa County is in compliance with A.R.S. § 49-112(A) in that Maricopa County is proposing to adopt revisions to Rules 321, 360, 370, and 371 that are not more stringent than nor are in addition to a provision of A.R.S. Title 49 or rules adopted by the Director of the Arizona Department of Environmental Quality (ADEQ) or any Board or Commission authorized to adopt rules pursuant to A.R.S. Title 49.

The Section 112(B) demonstration does not apply because these particular rules are in that portion of Maricopa County's air quality program that is administered under direct statutory authority. Therefore, these rules are not being adopted/revised in lieu of a state program.

7. Demonstration of compliance with A.R.S. § 49-471.08:

A county may declare an expedited rulemaking if the rule is adopted pursuant to A.R.S. § 49-112(B) and the rule incorporates a conforming change to directly reflect federal or state rule or law. The changes incorporated into Rules 317, 321, 360, 370 and 371 have been proposed in order to directly reflect federal law.

A.R.S. § 49-471.08(A)(1)

Rule 317 is substantially identical to ADEQ's Standards of Performance for Existing HIMI Waste Incinerators rule, R18-2-732. Rule 321 is substantially identical to ADEQ's Standards of Performance for Existing Municipal Solid Waste Landfills. Rule 360 is substantially identical to ADEQ's Standards of Performance rules, R18-2-902 through R18-2-905. Rule 370 is substantially identical to ADEQ's National Emission Standards for Hazardous Air Pollutants rule, R18-2-1102. Rule 371 is substantially identical to ADEQ's Acid Rain rule, R18-2-333. At both the county and state levels, these rules implement federal requirements according to each federal program identified or applicable source type that is subject.

A.R.S. § 49-471.08(A)(2)

This rulemaking is required to update the applicability dates in these rules, and it incorporates subparts that have been passed by the federal government, which are required to be implemented.

Rules 317, 321 360, 370, and 371 do not alter the sense, meaning or effect of the state rules and federal regulations from which they are derived, as it incorporates language that is essentially the same as the state's applicable rules and the federal code of regulations.

A.R.S. § 49-471.08(A)(3)

Under A.R.S. § 49-112(B) a county may adopt rules in lieu of a state program that are as stringent as a state program, if the county demonstrates that the cost of obtaining permits or other approvals from the county will be approximately equal to or less than the cost of obtaining similar permits. Because Rules 317, 321, 360, 370, and 371 do not establish fees, any costs associated with these rule will come from permit application fees for sources obtaining a permit revision to reflect new emissions limits, due to applicability of a new standard. Therefore, fees associated with these rules will be exactly the same as fees associated with similar permits.

8. Reference to any study relevant to the rule that the department reviewed and either relied or did not rely on in its evaluation of or justification for the rule, where the public may review each study, all data underlying each study, and any analysis of each study and other supporting material:

No studies were reviewed in reference to this rulemaking action.

9. A showing of good cause why the rules are necessary to promote a statewide interest if the rules will diminish a previous grant of authority of a political subdivision of this State:

Not applicable

10. The preliminary summary of the economic, small business, and consumer impact:

Maricopa County is proposing to update its incorporations by reference of the following federal regulations: New Source Performance Standards (NSPS); National Emission Standards for Hazardous Air Pollutants (NESHAP); and Acid Rain. These revisions should not have an economic impact on businesses in Maricopa County and should not impose additional costs on the regulated community, small businesses, political subdivisions, and members of the public.

11. Name and address of department personnel with whom persons may communicate regarding the accuracy of the economic, small business, and consumer impact statement:

Name: Renee Schindler or Jo Crumbaker
